

Bradfield Village Shop update – February 2018

We're continuing with our update of the shop fittings. Latest addition is a new fridge, at the front of the shop, where you'll find a great selection of snacks and drinks. We also have a microwave, where you can have your pastries and pies warmed, ready to eat. And we have a new coffee machine on order, which should arrive very soon.

At the post office, our staff are working very hard. However, as you may have read in the press, POL have once again reduced the remuneration we receive for many of the products we offer. We are paid a small amount for every over-the-counter transaction and so any reduction in this has a negative effect on the viability of our post office. We are entirely dependent on you, our customers, continuing to support us, to keep the post office open. So rather than taxing your car online, pop in to do it with us. If you're planning a trip abroad, our multi-currency card is an excellent way to take money abroad and offers very competitive exchange rates. It can be set up with as little as £50. If your bank has closed its local branch, come to us—we can provide banking facilities for 97% of all high street banks. If you have difficulty getting parcels delivered when you are in, use our Click and Collect service. And if you have a parcel to send, with parcel rates so reasonable, you can send a parcel up to 2kg for as little as £2.90 with an online confirmation of delivery. We have so many services to offer — please do use us as much as you can!

PS Keen stamp collectors will be delighted to know that the Game of Thrones stamps are now on sale. We also have a special series of stamps featuring Dad's Army and another commemorating the centenary of the RAF. If you would like us to save you a set, just ask at the post office counter.
